Featuring more colors than any other television, see never-before-seen colors like sparkling golds, Caribbean blues and sunflower yellows. On the LC-52LE830U, this technology is enhanced further with Quad Pixel Plus, which produces smoother lines by enabling the individual control of all 8-million sub-pixels on the screen. A stunning new contemporary Edge lit design proudly announces a new AQUOS television direction. The proprietary AQUOS LED system comprised of the X-Gen LCD panel and UltraBrilliant LED enables an incredible dynamic contrast ratio of 6,000,000:1 and picture quality that is second to none. 120Hz Fine Motion Enhanced virtually eliminates blur and motion artifacts in fast-moving video. The LC-52LE830U is fully featured, including the addition of Vudu™ apps, Netflix streaming video, CinemaNow capability, along with the industry's leading online support system, AQUOS Advantagesm Live.
